

Beiseker News Briefs

Coronation Day was observed in St. Mary's Parish, Beiseker, with a High Mass at 10 a.m. Tuesday by the Rev. Father Tennant. The junior choir was in attendance.

Mrs. A. A. Wald and Miss Chris Velker, are delegated to attend the Catholic Women's League convention at Medicine Hat on June 8, 9 and 10.

Mr. and Mrs. Mike Fernes and Miss Chris Velker motored to Lethbridge on Saturday to visit Mr. and Mrs. Nik Velker.

Mr. and Mrs. Roni Seizler of Edmonton stopped at Beiseker over the week-end on their return trip from Washington, to pick up their daughter, Beth, who had been spending a week with her grandparents, Mr. and Mrs. Pete Schmaltz.

Dr. and Mrs. Don Fisher of Shelby, Montana, spent the week-end at Beiseker and Red Deer.

Mr. and Mrs. Otto Tetz are the proud parents of a baby daughter.

Funeral services for Perry David Berreth, 5½-month-old son of Mr. and Mrs. Gottlieb Berreth, will be held Wednesday afternoon at 2 p.m. from Zion United Church. He leaves to mourn his parents, three sisters and one brother. The sympathy of the community is extended to the Berreth family, in the loss of their little one.

Officers Elected At HSA Meeting

CROSSFIELD — The Crossfield Home and School Association held the regular meeting in the school on Wednesday, May 20 at 8:30 p.m. Rev. Justice, Anglican minister of Crossfield, was the speaker. He chose as his topic "The Home in Relation to the Child." He said that parents had the first and most lasting influence on the child.

The following slate of officers was elected for the year 1953-54:

Pres., Mrs. Eva Banta; Vice-Pres., Mrs. Lucille Korschuk; Sec., Mrs. Leona English; Treas., Mrs. Kathleen Shantz; Social Com., Mrs. J. McCool, Mrs. M. A. Rasmussen; Program Com., Mrs. Wilda Heywood, Mrs. Ruth Sharp, Mrs. Ruth Mumby; Membership Com., Mrs. Dale Ray, Mrs. Margaret Baldwin, Mrs. Jim Baxter; Finance Com., Mrs. Annie Aldred; Staff, Mr. Herbert Mumby; Sick Convention, Mrs. A. Bannister; Courtesy Com., Mr. and Mrs. Charney.

As it was Father's Night they gave the program as follows: Solo, Mr. Justice; Solo, Mr. E. Dovey; Duet, Mr. W. Macdonald and Mr. Dovey.

Another Women's Liberal Club Formed

BEISEKER — Mrs. O. T. Dean, president of the Alberta Women's Liberal Association; Mrs. R. L. Nicolson, Mr. Harold Millican, O.C., all of Calgary; and Mr. W. L. McDonald of Greinger, addressed a gathering of ladies on Thursday evening at the home of Mr. and Mrs. F. A. Lount.

A Women's Liberal Club was formed, with Mrs. A. A. Wald as chairman; Mrs. F. A. Lount, vice-chairman, and Mrs. L. B. Olsen as secretary-treasurer.

A very dainty lunch was served by the hostess.

A study of Federal-state taxing programs to reduce Washington's power and eliminate duplications has been proposed by President Eisenhower, Governors and other officials.

THE CHATEAU FRONTENAC made an imposing background as the Empress of Australia, making her first westbound voyage under Canadian Pacific colors, passed Quebec City on her way up the St. Lawrence River to Montreal. The 19,000-ton vessel was purchased by Canadian Pacific Steamships to replace the Empress of

Canada, destroyed by fire at her Liverpool dock last January. She was formerly the "De Grasse" of the French Line. This is the first of 10 round trip voyages between Liverpool and Montreal which his vessel will make during the present season of St. Lawrence navigation. — Canadian Pacific Photo.

Coronation Parade, Program Enjoyed In Spite Of Rain

The Coronation program proceeded with variations due to rain, which was most persistent throughout the whole day, and which was supposed to have taken place in the park in front of the epitaph, finally found sanctuary and a very large audience in the Community Hall. Mr. Mumby, principal of the local H.S., acted as chairman, and was also the Anglican representative. He graciously welcomed all who had turned out in the deluge to participate in the Coronation ceremonies.

After the singing of "O Canada," and from the screen "O God Our Help in Ages Past," Rev. McDonald of the Baptist Church addressed the congregation, saying that "George the Good, our late beloved King had left a great heritage — our lovely young Queen Elizabeth, who is the symbol of the ties of our great commonwealth."

He explained that the training of a monarch entails a life time of study; much sacrifice in youth especially, to fit one for the countless heavy duties that are placed on the shoulders of a ruler. Queen Elizabeth has asked that her subjects pray constantly for her and mingled with her own supplications she will be better able to serve her Empire and its race.

Rev. McDonald completed his address by referring to that portion of scriptural prayer that entreats us to remember those in authority.

Rosalyn Bills and Lois Reid sang a duet "Elizabeth of England," which was very appropriate and much appreciated.

Mr. Mumby then spoke briefly on the changes that had taken place since the Battle of Hastings in 1066, when William the Conqueror was crowned King of England in the same Westminster Abbey, where all the kings have been crowned since.

He said that great changes had taken place since William of Normandy doffed his crown in the middle of his reign to lead his men in battle. The old Abbey had been rebuilt and was a spectacular sight at all times and particularly so at Coronation times, where Elizabeth renewed her pledges.

Rev. Dovey gave an account of the procedure of the Coronation from the time the coach left the Royal Palace till she was crowned in Westminster Abbey, stating that first the Archbishop of Canterbury has to ask the people if they will accept the new ruler, to which they reply "God Save the Queen" each time to the thriceput question.

The Queen then pledges herself. She is then crowned and anointed in oil. Rev. Dovey gave a detailed description of the beautiful and ancient ceremony. The singing of "Onward Christian Soldiers" brought the service to a close.

In spite of the heavy rains some 20 floats and decorated cars with smiling chauffeurs participated in a parade while hundreds of good natured people waved their appreciation.

Great credit is due Harry May, parade organizer and Bert Bannister and his son Keith, whose nicely decorated car with stirring musical records and loud speaker actually saved the day as the happy music and flag trimmed truck led the parade, followed by a float representing the Rebekah Lodge, F. W. Becker's Plumbing float, the CGIT and the Trail Rangers, The Happy Gang Garden Club with its evergreens and miniature garden displayed on a nicely trimmed truck, the 4-H Club, the Massey-Harris display, the school buses, Happy's

Implement Display, Crossfield School and Home & School, and various other organizations' floats and cars.

Crossfield was very proud of the parade even if it was rain-bedraggled. Many entries could not reach town due to bad roads.

The children's bikes were very beautifully decorated and examined in the hall and the prize winners were:

Children's tricycles, according to merit — Inga Ronneberg, Jimmie English, and Dolly Gilson.

Class 1, bicycles — Glen Shantz, Judy McDonald, Brian Gallell.

Class 2 — Lexie Charney, Teddy Ronneberg.

Class 3 — Dennis Poffenroth, Leslie Johnson.

Class 4 — Norman Morrison, Trevor Rasmussen.

In the afternoon, Mr. Bannister, Mayor of Crossfield, showed pictures. The upper and lower floors in the hall were both used to accommodate the crowd, and the children were given treats and seemed to make the best of the situation, judging by their cheerful faces.

There was one mishap which dampened the enthusiasm of the day when "Steve" accidentally was thrown from the transport when it started up. He suffered a broken arm, badly bruised hip and shock. Steve was helping to unload treats for the children and was not aware that the truck was about to move.

The BESL was also represented in the parade with all its various uniforms to add to the picture.

A nice dance in the evening completed the Coronation celebration for Crossfield.

Council Votes 91% In Favor Of By-law

The Village of Beiseker went to the polls June 1st on the proposed water and sewage by-law, and the vote was carried 91% in favor of the by-law. The village council is now preparing to go ahead with the proposal.

L. L. Schmaltz is mayor of Beiseker.

Departing Family Honored

BEISEKER — A farewell party was given the Frank H. Wright family by members of the Zion United Church of Beiseker. Mr. Wright has been a very active member of the church, being one of the elders and was secretary for the past year.

Mrs. Wright was a member of the Women's Association of the church. Mr. Wright was Canadian National Railways agent at Beiseker for the past four and a half years. He has been transferred to Innisfree, Alta.

Jr. Beef Club Meets With 5 Other Clubs

CROSSFIELD — Crossfield, along with five other clubs, Olds, Westward Ho, West Didsbury, Jutland and Carstairs held their annual field day on Saturday, May 23. Over 150 people attended. A picnic lunch was enjoyed in the Mechanics Building of OSA. Mr. McPhail acted as master of ceremonies.

The principal, Mr. Birdsall, welcomed the group and spoke briefly about the School of Agriculture.

Club leaders were then introduced and spoke briefly.

The group then proceeded to L. Latimer's farm and judged three classes of his purebred show Shorthorns. Charles Yule explained what to look for in good beef animals and when the judging was completed he placed the classes, giving reasons.

Because of rain the showmanship and washing was omitted from the program. When work was completed plenty of ice cream and pop were supplied for all the visitors.

Jacqueline Baxter was the best judge of the Crossfield Club.

Canadian Farmers Today Said On Land By Choice

"Canada has a generation of people on the land today who are there because they want to be there," Grant MacEwan, manager of the Council of Canadian Beef Producers, (Western Section), told Wednesday's luncheon meeting of the Calgary Gyro Club in the Palliser Hotel.

He said that in the 30's a lot of people were on the land across Canada because they had no choice and there was nothing else for them to do. But, when the way came and the wheels of industry began to turn many men took the opportunity to get away from the land. Consequently this left us with a group of people on Canadian farms who were there by choice.

After giving details of a survey he had conducted among agricultural students at the University of Manitoba during the time when he was dean of agriculture there, Mr. MacEwan said that all this talk about rural de-population — the fact that farm boys were leaving the farms to go into the cities and that there would not be enough men left to man the farms — had been going on for the past 100 years.

"The important thing," he said, "is not that we have more people living on the land. The important thing is that the people on the land want to be there. The important thing is not to discourage the farm boy who wants to leave the land, any more than you ought to discourage any boy who wants to leave the city to go on the land."

THE BEISEKER TIMES

Published every Tuesday by the Sun Publishing Co. Ltd., Edmonton
MRS. K. WALD, Local Editor

REPORTERS: John Leiske, Level Land; Mrs. Gladys D. Longson, Kathryn.

Published in the interests of Beiseker and District every week at
10815 Whyte Ave., Edmonton, Alberta. Phone 34863.

PRUDHAM BLAMES OIL FOR COAL MINE SLUMP

OTTAWA—Members of Parliament from Canada's mining communities east and west pressed the government Wednesday for a national coal policy to pull that industry out of what they describe as the doldrums.

Mines Minister Prudham replied that there is a national coal policy, one that has been operating since establishment of the Dominion Coal Board in 1947.

While admitting the coal industry is having difficulties, the minister did not see the situation as hopeless. He believed, he said, that with co-operation among the federal government, the provinces and the industry, the difficulties could be worked out.

He blamed most of the difficulties of the Western coal industry on development of oil and gas industries. A special committee of interested parties now was working on new methods of treating Drumheller coal so it would handle and store without breaking up—a necessity for increasing western coal sales in Eastern Canada.

Rev. E. G. Hansell (SC Macleod) and C. E. Johnston (SC Bow River) spoke in the debate.

Mr. Hansell said mines in the Crow's Nest Pass area now are down. He suggested a select board or committee to study recommendations of the Carroll coal commission of 1946 and put them into effect.

Mr. Johnston said there are good grounds for increasing the federal treasury subventions toward rail tolls and coal going to market. Some Alberta mines were closed for lack of markets. Steps should be taken to see that Canadian coal got better access to the Ontario market, now taking a large quantity of U.S. fuel.

Supplies Adequate

Canadian consumers of coal had enjoyed adequate supplies, said Mr. Prudham. In 1947 the industry produced 15,869,000 tons of coal at a profit of a cent a ton. In 1951 it produced 18,587,000 tons at a profit of 36 cents a ton.

Output in 1952 was down to 17,579,000 tons "but this is almost entirely due to natural conditions." Consumption of the railways fell off by about 1,000,000 tons and it had been a mild winter.

As for support of the industry the minister said government support should extend only to the industry on a national or area basis and, through free enterprise, have full scope to maintain competition and weed out inefficient operators and eliminate mines approaching exhaustion.

Mr. Johnston said the minister's review did not constitute a new national coal policy.

Mr. Prudham interjected that he had never said that it was new. It was a policy that had been followed consistently.

Crown Heavier After Changes

LONDON (BUP) — The already burdensome weight of the British state crown has been increased about two ounces in altering it for Queen Elizabeth.

The gem-encrusted crown weighed two pounds, 12 ounces when it was sent to the jewelers some weeks ago to be changed to the proportions of the Queen's head. Today, the crown is about ready, and scales show it now weighs two pounds, 14 ounces.

Farm Equipment Cost Absorbs Wheat Profit

If farmers had to operate with horsepower and hired labor there would be little profit today in that \$1.50 a bushel for the price of wheat, says the Alberta Wheat Pool.

Discussing the costs of wheat production, an editorial in the Wheat Pool Budget suggests that although extensive mechanization has lowered the cost, any benefits have now almost disappeared because of the higher price of farm equipment.

"The larger farms and those with heavy production are in a preferred position," it states. "But if misfortune comes through drought, hail, plant diseases or insect pests and a year's crop is lost, the year's pay has gone down the drain."

In the Wheat Pool's calculation, the farmer has been getting about \$1.50 a bushel net after paying freight and handling charges on No. 1 Northern wheat selling at \$1.83.

"In view of the inflationary trend following the Second World War, and the Korean outbreak, that price certainly cannot be considered high." Only a small percentage of wheat grades No. 1 Northern.

Since 1937 farm mortgages in the prairie provinces have been declining, according to a second article in the Wheat Pool Budget.

In Alberta the reduction in outstanding mortgage debt has dropped 77.7 per cent since 1937. Amount owing in that year was \$39,734,000 but in 1952 it was down to \$8,873,000.

In Saskatchewan, hard hit by depression and drought in the 30's, the mortgage drop has been even higher at 88.2 per cent. The total debt dropped from \$107,803,000 in 1937 to \$12,786,000 last year.

U.N.I.C.E.F. Does Important Work

The work of the United Nations in UNICEF stands out as one of the great achievements of that organization. With only \$180,000,000 to spend since 1947 they have helped 75 million children, giving them milk, medical care, etc.

Contributions to the fund come from many countries. According to population New Zealand has made the highest contributions, Canada came sixth and United States seventh.

When the organization asked Holland if she needed help for the flood victims, Holland said no but instead sent \$40,000 herself.

There is no limit to the demand as the suffering among children can hardly be imagined. This work of the UN is very worth while.

President Eisenhower, in opening the Red Cross drive for \$93,000,000 and 5,000,000 plate of blood, urged everyone to respond.

H. W. Webber Named Edmonton Chamber Acting Supervisor

EDMONTON — H. W. Webber Wednesday was appointed acting supervisor of co-operative activities, Alberta industries and labor minister Dr. J. L. Robinson announced.

Webber, former deputy supervisor of the department, succeeds F. J. Fitzpatrick, who died a week ago after 21 years in the provincial government service.

Charge Murder After Stabbing

BRANDON — A 24-year-old Irish paratrooper faces a murder charge here as the result of a fatal stabbing early this week at Camp Shilo military base nearby.

Pte. Reginald John Finn was arrested following a coroner's inquest into the death of one of Finn's companions at Shilo — 29-year-old L/C W. N. Smith of Toronto.

Finn and Smith were fellow-members of the 2nd Battalion Royal Canadian Regiment.

Smith was fatally stabbed in a hut at Shilo, as the two soldiers prepared to go out on morning parade. Witnesses at the inquest say a heated argument between the two men preceded the stabbing.

Edmonton Chamber Seeks Driving Tests

EDMONTON (BUP) — The Edmonton Chamber of Commerce is submitting a resolution to the annual meeting of the Alberta Associated Chamber of Commerce and Agriculture, asking the provincial government to institute a driver testing program in Alberta.

The resolution asks the government to give immediate consideration to instituting driver testing requirements for new licence applicants. It also asks that a record of every driver in the province be established under "demerit" system.

Three other resolutions will be presented at the 15th annual meeting in Red Deer next Tuesday and Wednesday.

Defence Test For Alberta

SALT LAKE CITY, Utah — Civil defence directors drafted a plan to test defences of eight western states, Hawaii, Alaska, Alberta and British Columbia.

The test would include a mock enemy attack that theoretically would sweep through Alaska, Canada and into the United States.

Civil defence representatives of the area involved set the date of

the test for June 20 and planned to chart the details Saturday.

Lt. Gen. Henry Larsen, president of the National Association of State Civil Defence Directors, said a similar test has been conducted in 13 middle western states.

Workers' Pay Hits New High

OTTAWA (BUP) — Canadian workers are earning the highest average wages in history.

The Bureau of Statistics reports they took home \$925,000,000 in pay during February. This represents a total labor income in crease of eight per cent over the same month a year ago . . . although it is below the total in come of January.

Heavy retroactive pay settlements boosted the total in January.

The average weekly pay in non-agricultural industry is \$54.4 compared with \$53.95 a year earlier.

"The challenge today is to make rural living such that those people who have an urge to live under those circumstances will do so and will have a reasonably comfortable time and will derive those rich benefits they deserve", he de-

\$27,000?

\$100,000?

\$1,600,000?

How much does a wildcat cost?

A "wildcat" is a well drilled in an area where oil has never been found. Drilling costs vary, but the average wildcat in western Canada runs to more than \$100,000. One well cost \$1,600,000—and found no oil!

Oil is making an increasingly important contribution to our standard of living. How many of these questions about it can you answer?

How many wildcat wells find a new oil field—
1 in 3? 1 in 7? 1 in 23?

Since 1939 the cost of living index has risen by 85%. During that time has the price you pay for gasoline gone up by—
44%? 79%? 103%?

A lot of oil has been discovered in the west since 1946. In that time have Canada's oil reserves increased—
4 times? 23 times? 37 times?

Here in Alberta, who owns oil in the ground
governments? farmers and other landowners?
oil companies? other business corporations?

Canada's growing oil industry means orders for many businesses, jobs for many Canadians. Last year Imperial's purchasing department bought equipment and supplies from Canadian firms amounting to—
\$12 millions? \$36 millions? \$110 millions?

The long-term average in western Canada is 1 in 23. Only 1 in 87 has found a field capable of producing as much as 2,000 barrels a day.

The average retail price of gasoline is only 44% higher than prewar, even with higher road taxes in all provinces.

Reserves have increased 23-fold in the past six years. Canadian fields now supply all the prairies and part of B.C. and Ontario.

Three answers are right. Oil companies do not own mineral rights. They are on a share-cropper basis; they do the work and take the risks of failures, paying up to 16 2/3 per cent. of all oil produced to the owner of mineral rights—usually governments, which own 90% of the rights to Alberta's minerals.

\$56 millions. About 4,500 Canadian companies sold Imperial supplies ranging from heavy steel plates to paper clips.

What Has Happened To Justice?

Last winter an emotionally unbalanced young white man deliberately walked up to an Edmonton business man and fired a bullet into his head that killed him. He took the life of one man and will die for his crime on the gallows.

In the southern part of the Province an Indian deliberately walked into a cabin room where were five other persons sitting around a hot stove. He threw a jar of gasoline into their midst which immediately exploded, and the lives of these five people were taken in the resulting fire. For taking the lives of these five persons Alex Standing-at-the-Door will serve a ten-year-prison term.

Where is the justice in these cases? Why should one man pay the death penalty for killing one human, and another given ten years for killing five persons? Will he be released in 1963 to kill again?

This is the latest proof in the argument that capital punishment, as practised in Canada is unjust, outmoded and should be outlawed. The maximum sentence for taking the life of another should be life imprisonment. In prison the murderer can be made to live a useful life behind bars where he'll be safe without loss to society.

A Proud Record

Rt. Hon. C. D. Howe, Canada's Minister of Trade and Commerce and Defence Production, has been entrusted with great responsibility. Recently he recalled that since he has been a member of Parliament various Liberal administrations, before, during and after the war, have had the responsibility of directing expenditures of a total of \$46½ billion. As minister of munitions and supply in the second world war and minister of defence production in the present defence effort, Mr. Howe has probably, more than any man, influenced the tremendous expansion of Canada's trade and industry.

Looking back Mr. Howe takes pride in the way the money was handled. Recently he said, "That huge sum has been spent without a single suggestion that any member of the government or any senior official has profited by so much as a single dollar. Furthermore, no one has proven waste or extravagance or inefficiency relating to a single expenditure made during that period."

The Vitamin Craze

Dr. Maxwell M. Wintrobe, a specialist in the treatment of anemia, says many people would do better to buy meat and vegetables in the grocery store rather than spend money on vitamins. He terms "shot-gun" doses of such food supplements as iron, and other minerals, a waste of money in many cases.

Dr. Wintrobe believes a person has to be "pretty hard up" or a fadist to develop a nutritional deficiency these days. "Persons of normal appetite or even slightly subnormal appetite will get all these substances they need in food they eat," he says.

Further, Dr. Wintrobe asserts "There is no justification for the general use of such substances as Vitamin B-12, ascorbic acid and copper." In the treatment for anemia, each treatment is designed for a different type. In at least one case, one remedy for anemia is dangerous if used in treating another type. The best advice is therefore to eat a balanced diet, or see a specialist.

Men Of Valor

In the days when the Quakers ruled Pennsylvania, for a period of seventy-five years not a single Quaker was killed by the Indians. One of the reasons is revealed in the experiences of John Woolman, who hearing that some Indians were on the warpath decided that he must pay a visit to other Indians near the fighting. He made the journey, was received with hospitality, gave evidence of good will and returned safely to his home.

The Bible Today

I will instruct thee and teach thee in the way which thou shalt go; I will guide thee with mine eye.—Psalm XXXII; 8.

Why Not More Provincial Highways?

By T. W. PUE

This year the Alberta Government, in giving the Municipal Districts large road grants, are trying to get them to have the money spent on roads designated by a Government road building engineer. The Province no doubt feels that in the past a lot of Municipal district road money has been virtually wasted by spending it on back roads and not trying to build up the main "market" roads in the districts.

Some would argue that as the Provincial Government is contributing in many cases most of the money, they have a right to dictate where it is to be spent. But the authorities in Edmonton are not dictating. They are simply suggesting to the local councils that the services of the Government engineer be used. And if the council, by a majority vote, decides to put the Road Engineer in charge, he then makes the decisions.

T. W. PUE

Now, there is nothing arbitrary or unfair about this. It means that eventually each Municipal District should have a number of good market roads intended to serve all the residents instead of having spotty bits of road work done here and there.

NOT THE ANSWER

This, however, is not the answer. It does not satisfy either the need for good cross-highways for the municipality as a whole or the needs of the individual farmer who can't get out of his own yard to use the good market road.

For instance, in the Municipal District of Lac Ste. Anne the Government engineer wanted to build up a few good market roads feeding into the Edmonton to Whitecourt and Valleyview highway. That road, when completed, will be virtually the Alaska highway and short cut to the great Peace River district and entire north country.

My impression is that what is needed here is a new Provincial highway to connect Highway 43 (Edmonton to Valleyview) with Highway 16 to Jasper and Highway 18 that connects Fort Assiniboine, Barrhead and Westlock.

Why should Municipal funds be used to build a Provincial highway? might well be asked. It is true that a good road connecting Highways 16, 43 and 18 would be invaluable to the tourist, provincial truckers and travellers from one part of the province to another. You can't blame residents of Lac Ste. Anne for feeling resentful of having funds earmarked for municipal roads being spent just to connect up Provincial Highways.

There is another angle about this. People, wherever they are, like to spend their own money. If the Provincial Government, giving as they do, large and liberal grants for the building of municipal roads, have their own men supervise the spending of that money, it is taking from the local council the privilege of running local affairs of government insofar as roads are concerned. And road building accounts for an awful lot of the job of local government.

Governments should never forget that citizens like to have the pleasure of spending their own money in their own way. During the depression Premier Bennett established labor camps across the country to absorb the unemployed. Instead of paying each man so much per day and letting him spend the money where he wished, the Bennett Government figured out that, given board, room and clothing, each man should get \$5.00 in cash per month because that's all he'd have left if he had a job at the going wage of \$1.50 per day. The idea was mathematically correct but wrong in principle.

The Provincial Government is able to pay large sums of money in grants for the building of roads in the Municipalities. They shouldn't spoil it by telling the M.D.'s how and where the money is going to be spent.

Now Favor Confederation

Newfoundland, Canada's newest and yet oldest province, marked an anniversary recently. March 31 was end of its fourth year in Confederation. Politically Newfoundlanders have lived under just one Canadian parliament.

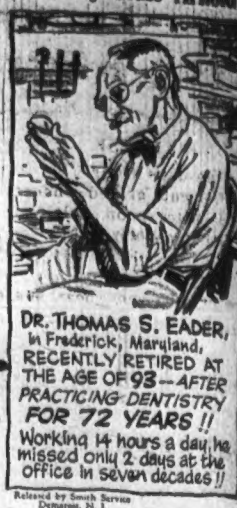

When they elected seven members to the House of Commons for the first time four years ago many of them had doubts about the wisdom of union with Canada. Now, judging by public statements many of the doubts have disappeared. Two members of Parliament who had been among the opponents of union spoke of the event briefly on March 31, said they had been happy in the Parliament of Canada and were satisfied the union was for the good of Newfoundland.

NATURAL GAS SERVICE

The writer of the editorial in the Lethbridge Herald, reproduced in your issue of May 8th, had little regard for fact or fairness in commenting on the supply of natural gas to the City of Saskatoon by the Saskatchewan Power Corporation.

In drawing comparisons between the rates charged for natural gas in Calgary, Edmonton and Lethbridge with those offered to Saskatoon, the Lethbridge Herald, conveniently ignored two important factors. One is the fact that the source of supply is much closer to the Alberta cities and the other is that the capital costs are at least double those prevailing at the time of the Alberta installations.

The Lethbridge Herald should know, and probably does, that the estimated cost of distribution of gas in Saskatoon was arrived at not by someone sitting in a government office, but by the collaboration of experts of the highest international standing in the field of gas production and distribution. The Fish Engineering Corporation of Houston, Texas, the firm of DeGolyer and McNaughton, Geological engineers, and the Gas Machinery Company of Hamilton were retained by the Saskatchewan Power Corporation and the estimated costs were determined by the findings of these experts, supported by the calculations of the Corporation's own engineers, after the most careful economic studies and market analysis.

The charge that the people of Saskatoon "rebelled" against the proposal of the Saskatchewan Power Corporation is as ridiculous as it is untrue. The Committee of the Saskatoon city council which carried on the negotiations with the Power Corporation, and which had at its disposal all the detailed estimated costs, in its final report to the City Council said:

"The initial price of 80 cents per MCF to the average consumer cannot be considered as unfair under the existing circumstances. Your committee are satisfied that it offers a competitive fuel at 25 per cent below competing fuels at present prices." and in the concluding paragraph of its report the City Council committee added:

"Nobody will question that it is the desire of the government that gas should be distributed in the interest of the citizens of Saskatchewan."

This finding of the committee of the Saskatoon City Council, and

the votes of the people of Saskatoon in the provincial election, and not the unscrupulous distortions of opposition newspapers, may be accepted as the real estimate of the residents of the Saskatchewan city of the soundness and fairness of the Saskatchewan Power Corporation's proposal to provide them with natural gas for fuel.

As a matter of fact the City of Saskatoon was offered the natural gas distribution rights in the city but decided to ask the Power Corporation to assume this function, with the proviso that an independent regulatory authority be set up to which appeals regarding rates and service may be taken. The government of course accepted this proviso, and legislation was passed accordingly at the recent session of the legislature.

As a grant in lieu of taxes the City of Saskatoon will receive from the Power Corporation up to 5 per cent of the gross revenue from the distribution of gas in the city. So everyone but the Liberal newspapers appear to be happy about the Saskatoon proposal.

Gas and Oil PRODUCTS
HEAD OFFICE — CALGARY

\$1 for Favorite RECIPE

CHEESE BITES

Two cups flour.
One cup grated cheese.
Half teaspoon salt.
One teaspoon baking powder.
Combine above ingredients with butter or lard to the richness of pie crust. Then beat one egg, add to the mixture. Add a pinch of paprika if desired more nippy. Roll out and cut and bake in a moderate oven ten minutes in greased pan. I make these with a cookie maker and then they are more dainty.

MRS. EDWARD TREICHEL.

LETTER TO LOUISA

Husband Sends Money To Mother While Wife Is Forced To Work

Dear Louisa:

I am a young married woman, a Christian and have one child. I have had to work all my married life not because I wanted to. My mother keeps my boy and they love him very much.

My mother-in-law is a dictator and her son has to do whatever she says. She even tells him where to work and had him quit a good job to please her.

Although I love my husband, this is causing trouble because I want to live our own way and not hers.

He was in World War II and I worked every day while he was away. I minded my own business and cared for my boy. He saved his money in the army and sent \$400 to his mother, not me, while I paid old bills out of mine. I earn as much money for the home as he does.

Broken Hearted Sal.

Answer:

It sounds as though you are getting a pretty raw deal. Of course, if your mother-in-law is an invalid and has no means of support I could understand why he might have sent money to her if he thought she was in need and knew that you were supporting yourself.

But if your mother-in-law is in good health and has some income, there is no excuse to make you work instead of letting you take care of your child and home. And certainly a wife should be consulted about plans rather than blindly following the advice of someone else.

Your husband is evidently one of these boys that mothers sometimes tie to their apron strings and refuse to ever let go. Such mothers cause a great deal of unhappiness because their sons are torn between two loyalties and are so accustomed to doing what mamma says that they keep on doing so from habit.

If you are living with your husband's mother the first thing you had better do is to try and get a

home of your own and bring your child home to stay. Be friendly with your mother-in-law but let her understand that you are going to make your own decision and try to make your husband see that marriage is a partnership and a wife is one of the partners and should be treated as such.

Good Luck.

Address your letters to:
Louisa, P.O. Box 4430,

Field Day Planned For Swine Breeders At University Of Alberta Farms

EDMONTON—Tuesday, June 16 is the day of the 12th Annual Field Day for the Advanced Registry for Swine. Events are to take place at the Livestock Pavilion, University of Alberta Farms, commencing at 1:30 p.m.

Dr. L. W. McElroy of the University of Alberta will give the address of welcome and Mr. O. S. Longman, the Deputy Minister of Agriculture will bring greetings from the Alberta Department of Agriculture.

An address on the Breeding and Feeding of Pigs for the Consumer's Table will be given by Dr. McElroy, following which will be the announcement of the winners of prizes contributed by Burns and Company for sows making the

best general performance on test in 1952-53.

Mr. D. B. Lambroughton, of the Advanced Registry of Swine at Ottawa will speak on "One year's Result with Self-feeders."

"Advanced Registry Carcass Cutting Demonstration" will be given by Mr. M. Syrotuck, Production Services, assisted by E. W. Hertzberg of the Swift Canadian Company.

Chairman for the day will be Mr. Roy Marler of Bremner, who will lead all discussions.

This day has been arranged for all Swine Breeders and all those interested in promoting the Swine Industry, and all interested parties are urged to attend.

Quick Canadian Quiz No. 123

1. The Yukon and Northwest Territories together equal the combined area of what provinces?
2. Of 1952 farm cash income what proportion came from the sale of wheat?
3. In dollar value what is Canada's leading mineral?
4. Prior to World War II Canada never produced more than 1.5 million tons of steel. What will 1953 production be?
5. Which of the prairie provinces has the largest population?

ANSWER: 5. Alberta. 3. Nickel.

1. B.C., Alberta, Saskatchewan, Manitoba, Ontario.
2. Slightly more than one-quarter.
4. About 4 million tons.

(Material supplied by the editors of Quick Canadian Facts, the handbook of facts about Canada.)

DEFINITE DECLINE OF RABIES SHOWN REPORT FROM OTTAWA

OTTAWA—A round-up report of the rabies situation in Canada during the past year shows a dozen different kinds of animals had the disease including a beaver, a moose, a bear, even five cats. But the greatest concentration was among dogs, with 44 confirmed as rabies sufferers. Foxes came second, with 39, and coyotes third with 18. Other animals affected were six wolves, seven bovines, three lynx and four swine.

The report issued by Dr. T. Childs, Veterinary Director-General, Department of Agriculture at Ottawa, reveals that more than half the 130 animals with confirmed rabies were in Alberta, with 89 cases. There were 18 in the North-West Territories, nine in British Columbia, six in each of Saskatchewan and northern Quebec and one each in Manitoba and Ontario. The Ontario case was a Canadian dog returned from Mexico.

Rabies in Canada during the period between June, 1952, and May 11, 1953, reached its peak February, 1953, when a total of 39 confirmed cases were reported. A tapering-off is indicated at present, with only two cases confirmed in May up until the 11th. There were 12 in April, 27 in March. Dr. Childs reports approximately 63,000 animals have been vaccinated.

"From records at hand," said

Dr. Childs, "it would appear that 80 people are receiving pasteur treatment as a precautionary measure following exposure to or having contact with rabid animals." No human fatalities have been reported.

Calgary Again Heads Labor Body

EDMONTON (BUP)—Robert R. Rintoul of Calgary was re-elected president of the 23,000-member Alberta Federation of Labor, which is holding its 33rd annual meeting in Edmonton.

James E. Smith of Edmonton was named first vice-president and Harry Brogden of Calgary was re-elected secretary-treasurer.

Anne McLaren of Lethbridge was named vice-president for the Southern Alberta region; Robert Scott of Calgary for the central region and Harold French of Edmonton for the northern region.

Rintoul and Grant McHardy, also of Calgary, were named federation representatives to the next national conference of the Trades and Labor Congress of Canada.

FIRES UNDER CONTROL

J. L. Janssen, chief Alberta timber inspector, reported six forest fires burning unchecked last week in the McMurray area are under control.

Mixed Drinking Return Asked

The Alberta Federation of Labor has called for immediate reinstatement of mixed drinking in Calgary and Edmonton.

A resolution approved Wednesday at the close of the AFL's three-day annual convention here charged that the people of Calgary and Edmonton are still "arbitrarily deprived" of the democratic privilege of enjoying a glass of beer with wives, husbands and friends in the hotel beverage rooms of the two cities.

One delegate suggested that confinement of mixed drinking to rural areas resulted in increased highway accidents.

Referring to Premier Manning, Joseph Cherrington of Edmonton said that several years ago he had called the premier a dictator for his attitude on the question of mixed drinking and "he hasn't changed yet."

Queen Triumphantly Tours London Streets

LONDON—Housewives of London's drab working-class districts Thursday hailed their radiant queen with admiring shouts. "Oh, aren't you lovely," as the newly-crowned monarch drove through northwest London.

The Queen wore a navy blue costume, edged with white and a smart, white, close-fitting hat for the second of her series of tours of London which will give her subjects a chance to see their sovereign "close-up."

Beside her in her open limousine rode the Duke of Edinburgh in morning clothes. Both were so smilingly happy that their good humor was infectious.

A crowd of more than 50,000 saw them leave Buckingham Palace in a Daimler limousine with its top down. Their cheers of acclaim were an echo of the frenzy of the Coronation 48 hours earlier.

All along the route through Chelsea, Fulham, Hammersmith, Hampstead, Kensington, Paddington, St. Marylebone and St. Pancras it was the same.

London seemed reluctant to lose the magic of the Coronation season. The mood everywhere was to keep the celebrations going as long as possible.

The entire route of the Queen's drive was lined with window boxes filled with flowers.

There were home-made signs reading "God Save The Queen." Bunting was strung along the streets in a display so fervent, if less resplendent, than that along the big boulevards Tuesday.

The Queen gave another state banquet for visiting royalty and distinguished guests Thursday night in Buckingham Palace. About 250 guests attended. Late in the evening, the Queen and the Duke of Edinburgh appeared on the balcony of the palace to the thunderous cheers of some 40,000 persons gathered below.

Price Of Eggs Up In Edmonton

Edmonton produce houses last week advanced the price of the two top grades of eggs, four cents a dozen in the face of declining production and supplies.

Outside demand absorbed all surplus of A large and A medium eggs. That put top prices to producers at 44 cents with usual two-cent spread on the next grade while small A's remained at 34 cents.

However, no definite trend was established in prices to the consumer.

Huge Alberta Wheat Area Lost By Rains During Seeding Period

Well over half a million acres of wheat has been lost in Alberta this year due to the heavy rains during the seeding season.

According to the latest report from the Alberta Wheat Pool only 89 per cent of the intended 6,111,880 acres of wheat has been seeded. Now it is too late for sowing and farmers have switched to coarse grains.

Worst hit in the province was the large central district around Calgary and extending south to Carmangay, east to Brooks and north to Trochu. About 300,000 acres in that region have been lost to wheat.

In the Brooks district 71 per cent of the crop has been sown, in the Vulcan district 78 per cent, and in the Irricana district 83 per cent. Last year in the Irricana district 833,000 acres of wheat were grown.

Good seeding progress has been made, however, in Peace River territory and the wheat there is about finished. Seeding of all crops is

being completed in the main wheat-growing district of the province in the southeastern corner which last year contributed 376,000 acres of wheat.

Alberta Wheat Pool estimates that already the barley crop seeded has been increased by one-twentieth more than last year when 3,336,000 acres grew barley. This crop is proving more popular than oats with an estimated acreage of 98 per cent of last year's 2,587,000 acres.

The most widely grown variety of wheat in the province will again be Thatcher which will represent over half the total crop. Marquis variety has dropped in favor from 12.9 per cent in 1951 to 9.8 per cent this year.

To date about half the coarse grains have been sown in the Calgary district, but elsewhere the seeding operations approach completion.

Brazil is hopeful of completing trade pact with Argentina.

THE LIGHTER SIDE

Making Headway

"Is your husband's studio prospering?" the young bride was asked.

"Indeed, it is," was the confident reply. "He must be making lots of money, for he told me last night that they had to appoint a receiver to assist him."

Too Hard Work

"Are you going to study singing, as you intended?"

"No. I gave up the idea when the teacher convinced me it would take three years of hard work to enable me to sing as well as I thought I sang already."

Just the Thing!

He was showing a friend around his ultra-modern house.

"There are lots of points about it that I like," said the candid friend, "and there are some that I do not understand. Why, for instance, the round hole in the front door?"

"Oh, that's for circular letters."

Surprised

"Well, my dear," wrote the wife to her husband in the BEF, "did you like those mince pies I made for you?"

"Mince pies?" wrote back the husband. "I thought they were rubber heels. I'm still wearing them."

Quick Transit

Mrs. Maloney was telling her neighbor that she had just received a telegram stating that her soldier son had arrived safely in India that morning.

The neighbor was amazed by the news.

"What!" she exclaimed. "That seems impossible, Mrs. Maloney. The telegram must have travelled at a terrific speed."

"Sure and faith it must have," said the proud mother. "Would you believe it, when I received the envelope the gum on it was still moist!"

Certainly, Madam

Bride: "I would like to open an account at this bank, please."

Teller: "We shall be very glad to accommodate you. What amount do you wish to deposit?"

Bride (smiling): "Oh, I mean a regular charge account, such as I have at the department stores."

The Lesser Sin

Mother—Which apple do you want, Junior?

Junior—The biggest one.

Mother—Why, Junior, you should be polite and say the little one.

Junior—Well, Mother, should I lie to be polite?

In Budapest, Hungary, after two factory nursery-school directors tried to buy chamber pots at a Government store and were told that only Japanese flower vases would be available until next year, the trade-union paper Nepszava angrily commented, "The small children of the nursery are in no position to wait that long."

Jasper at 106 St.

EDMONTON—About 400 ministers and laymen of the United Church of Canada gathered here last week for the 29th annual meeting of the Alberta conference. Opening ceremonies included a memorial service to six United Church ministers who died last year.

BERMUDA, BRITAIN'S OLDEST COLONY IS WORLD VACATION PARADISE

Tiny Bermuda, although not completely unmechanized, still retains the spirit of the long-dead past. Life on these lovely coral islands is still as easy and uncomplicated as it was in our father's time. The simply constructed homes, lime-washed in delicate rainbow shades, are built along the same lines and by the same methods as were used 200 and more years ago. Many of these buildings, characterized by their dazzling-white roofs from which all the drinking water in the British Colony is caught, have proved so sound in construction that they are still standing after more than 200 years. The oldest building on the islands is the Old State House in St. George, built of the native coral stone in 1620.

But the keyword which best characterizes Bermuda is its simplicity. Take a drive along the South Shore over the gentle rolling hills and look down on the long stretches of beaches and the little coves formed by arms of grey coral. There is no sound but the whisper of the sea breeze through the oleanders and the lazy wash of the waves over the sand.

Perhaps it was this same atmosphere of peace which Mark Twain noted in 1877 on one of his many visits to the islands. He wrote, "There are no harassments (here); the deep peace and quiet of the country sink into one's bones and gives his conscience a rest, and chloroform the legion of invisible devils that are always trying to whitewash his hair."

It was always a quiet, orderly little British Colony ever since it was founded by a group of British earls 340 years ago. With the increase of air travel in the past 25 years it has become a crossroads of the Western Hemisphere with planes from Europe and America stopping at the islands to discharge or take on passengers.

Although quiet, Bermuda is never monotonous since there is so much to do here. There are four first-rate golf courses, dozens of fine en-tout-cas tennis courts, sail and fishing boats to hire, and of course, miles of Bermuda's famous pink beaches to sport on. Amidst this are some of the most beautiful surroundings to be found anywhere. The sea with its sapphire blue, purple, opal, turquoise, green and myriad other colors is always in sight. The lovely houses perch on the sides of the gently rolling hills and overlook the countless little sounds, bays and harbors formed by encircling arms of land.

There is a legend that St. Brendan, an Irish monk, discovered the islands in the 6th century when he arrived here with a company of monks in "a coracle of wattle." "St. Brendan's Island" was located on Martin Behaim's famous Nuremberg Globe as early as 1492 in approximately the same spot as Bermuda. The islands are named for Juan de Bermudez, a Spaniard, who probably sailed around them early in the 16th century. "La Bermuda" appeared on maps in 1511. Bermuda remained unsettled and uninhabited except for the periodic forced visits of shipwrecked sailors until 1609 when the Sea Venture, flagship of a fleet of nine vessels sent out from England with supplies for the infant

BERMUDA'S BEACHES are world renowned for their soft white sand that stretches for miles, providing ideal sunning and swimming.

colony of Virginia, was wrecked off the reefs on the eastern coast of the islands. Admiral Sir George Somers, in command of the expedition, came ashore with his crew of 150 men and set about building a temporary settlement until ships could be constructed to transport them to America. When Sir George's men arrived back in England (the Admiral died on the islands the following year), their accounts of Bermuda so interested the Virginia Company that it decided to colonize the islands and sent out the first governor and 60 settlers in 1612. Their instructions were to discover pearls, ambergris, or gold which were rumored to be in abundant supply in Bermuda. In 1913 the Bermuda Company replaced the Virginia Company as the controlling organization of the islands.

The Colonial Parliament first met in 1620 in the old State House still standing in St. George on the eastern end of the islands. Next to the mother Parliament in London and the Parliament in Iceland, it is the oldest Parliament in the world. Over the 340 years of its settlement Bermuda has remained England's oldest and most loyal colony. As in the past, its governor is still appointed by the Crown.

The semi-tropical climate in Bermuda is about as perfect as one could hope to find. The average yearly temperature is 70.7 degrees and seldom falls below 55 even in mid-winter. The Summer and Fall months, one of the loveliest periods on the islands, are filled with warm days and cool evenings — the temperature averages in the low seventies from the end of May through November. Perhaps this is the reason why the climate is one of the healthiest in the world and why many Bermudians over ninety are still vigorous and lead an active life.

No matter how you come or how much time you spend here, you will find Bermuda a truly enchanted place, possessing an atmosphere all its own, with much to see and explore and do. Whatever you enjoy most, whether it be meeting people from foreign lands, playing golf on one of the four first-rate courses, sailing or fishing on the many sounds and bays, there is one thing which will greatly impress you — the natural beauty of the islands and the contented, full and happy life of the people.

News From Other Alberta Towns

MR. WM. H. SHAPKA PURCHASES START OF PURE-BRED HERD

VILNA — Recently Mr. Wm. H. Shapka scouted the Canadian prairies for some top Herefords in order to begin a thriving herd of his own. His recent purchases consisted of five registered heifers and one bull calf from one of the finest and most distinguished Hereford breeders in western Canada, J. S. Palmer and Sons, Marsden, Saskatchewan.

Mr. Palmer's herd is improved by his buying of prize-winning sires in the United States, and even the British Isles. Incidentally, the sire of the bull calf, that Mr. Shapka purchased for \$400, was raised on the Wyoming Hereford Ranch, while his dam was purchased at a Regina Sale for \$1500.

Mr. Wm. Shapka was accompanied by his father and Mr. John Lupul to the Palmer's "House of Good Herefords". The technique of managing the farm and raising and show cattle was quite amazing and impressive. Mr. Shapka tells that instead of going to see a stampee, a rodeo, or a Hollywood stage show he would appreciate much more in having a conversation for hours with Mr. Palmer. He knows what he is talking about, too, for he has seen plenty of Hollywood and Los Angeles after his discharge from the R.C.A.F. in 1946.

Mr. Palmer is quite a personality in himself. Probably his wide travels and cattle raising interests have made him so, because he is capable of telling his listener many things concerning care and feeding of beef cattle, intravenous injections, crop rotations, grass growing and even the scenery of Californian deserts or English hillsides.

The investment put into raising beef cattle is worth the risk and with stock that is of the highest quality, Mr. Shapka will, no doubt, succeed. His newly acquired cattle are from a herd that has an excellent record of champions, and grand champions at Regina and Kamloops since 1935.

Free Chest X-Ray To Commence June 5-11

SMOKY LAKE — Commencing June 5, it will be possible for every man, woman and child to have a Free Chest X-Ray at the Christmas Seal Mobile Unit, Smoky Lake. This survey, conducted by the Alberta Department of Health, the Alberta Tuberculosis Association, and the Smoky Lake X-Ray Survey Committee, will continue through to June 11, inclusive. Free Chest X-Rays are made possible in an effort to stamp out Tb.

Contrary to what people at one time believed, Tb. is not inherited but is an infectious disease and, unknowingly can be spread to other members of the family or to friends.

Tuberculosis by means of X-ray can be detected in its earliest stages, and with immediate treatment can be cured. To be sure that you don't have Tb., take advantage of the Free Chest X-Ray.

Former District Youth Dies

WASKATENA — The people of this community, particularly of the Brighton district, were sorry to hear of the untimely death of William Gilbert Frieholtz. Only 21 years old and recently married, Mr. Frieholtz was killed by exploding gasoline in the garage where he was employed at Rocky Mountain House. The young man's father, Gilbert, Frieholtz, a native of Brighton district, also met his death by accident, when he was thrown from a motor cycle some years ago.

William Gilbert Frieholtz is survived by his wife, the former Lorraine Oliver of Lethbridge, also by his mother and a sister, Doris.

Brothers Meet After 24 Years

NEWBROOK — Mr. Gustave Selent, a resident of Newbrook has brought his brother and family to Newbrook from the Russian zone in Germany. Prior to 1929 the families lived in Poland. In 1929 Mr. Selent and his family came to Canada, first to Bellis until 1935 and then to Newbrook and they made their home in Newbrook, Mr. Selent being the village blacksmith.

When the 2nd World War broke out, Mr. Wm. Selent and his family were driven from their home in Poland to Germany and were prisoners of the Germans, afterwards being captured by the Russians and lived in the Russian zone until they escaped to the British zone and from there they were able to come to Canada.

The family consists of Mr. and Mrs. William Selent; Seigfried, 19 years; Berthold, 16 years; Lucie, 14 years; and Helmuth, 10. Berthold, Lucie and Helmuth are attending the Newbrook school.

They still cannot understand the Canadian farmer being allowed to use for himself all the produce from the farm, especially cream and eggs.

Nuisance Grounds Discussed By Council

LAC LA BICHE — At the recent meeting of the Town Council the subject of the nuisance grounds was discussed at length. The present arrangement seems to be somewhat unsatisfactory, and the general public are not offering much co-operation. A quick look at the grounds—not to mention the obnoxious smell—will convince everyone that something definitely has to be done.

The town officials are hoping to purchase a site for a private grounds, which will be put under strict supervision. However, it has not as yet been decided whether they will co-operate with the Provincial Public Works Department, and operate on a combined grounds or a private one. Immaterial of what the decision will be, it will be up to all the citizens to adhere to the laws to help keep the place in a decent condition, and an asset to the town.

Clothing Aflame, Woman Is Burned

SPIRIT RIVER — Mrs. J. Beck, farm housewife in the Devale district, 14 miles northwest of Spirit River, was seriously burned early Friday when a fire broke out as she was starting a kitchen fire with Kerosene. She is in the Spirit River hospital suffering major burns on her forehead and knees.

Quick action on the part of Mr. Beck, who rolled his wife in a blanket, smothering the flames, and then extinguished the fire in the home where seven children were asleep, prevented a major catastrophe.

The fire broke out at 6:30 a.m. when Mr. Beck was doing chores and Mrs. Beck was lighting the fire. As the flames leaped up and caught her clothing, Mrs. Beck ran outside and rolled on the ground. Her cries attracted her husband who ran from the barn, obtained a blanket and put out the flames.

Black Bear Seen 34 Miles Northwest Of Edmonton

RIVIERE QUI BARRE — When Myles Kerr went out to feed the sheep early on the morning of Friday, May 22, he was flabbergasted to see a black bear attempting to get over or through the gate into the pen.

Myles rushed to the house, got a rifle and wounded it in the shoulder when it stood up, showing its height to be about 6 ft. Then Mr. Bruin retreated into the bush with Myles following at a respectable distance.

At the first opportunity in a clearing, Myles again took aim, but this time with an empty gun. This necessitated returning for more shells. Then with his brother Alex, they picked up the blood trail and followed it about a mile and a half. Mr. Bruin showed his cleverness when he squeezed through the fence between Kerr Bros. ranch and the Alexander Indian Reserve, which is a three foot sheep fence with three barbed wires on the top. He crawled over between the sheep wire and the bottom barbed wire, a space of about six inches in a tight fence. He lay down at intervals leaving a pool of blood, but the wound must have improved, because the trail finally petered out.

Kerr Bros. ranch is 14 miles west of Morinville and two miles south.

Couple First To Wed In New Church

GLENEVIS — Miss Anne Pastushak and Mr. Larry Ennis had the honor of being the first couple married in the new Catholic church at Onoway. Anne wore a white satin gown with a shoulder length veil. Her two bridesmaids were dressed in pink and blue gowns.

A reception was held at the home of the bride's parents. A large crowd was in attendance although it was raining.

The newlyweds are spending a few days at the bride's parents' home.

Hosts Visitors From England

WASKATENA — Mrs. Eggleton, and her little daughter, who recently arrived from Buckland Common, Tring, Hertfordshire, England, is a guest at the home of her uncle, S. Fuls, of Waskatena. Mrs. Eggleton plans to spend the summer with her uncle and his family, while her husband, an electrician, is employed by the CNR in Edmonton. They will probably make their home in Edmonton, if their plans work out as they expect.

They report having met P. J. Fuls in England this spring. Mr. Fuls is enjoying his visit to his native land and plans to stay for at least a year.

Vilna To Have Chest X-Ray Survey

VILNA — The local Chamber of Commerce is sponsoring a Chest X-Ray Clinic for Tb. from June 15th to 19th inclusive. X-rays are free.

Caught in time, Tb. can be cured completely. The miracle of X-ray has brought this new hope to thousands. Tuberculosis can easily be detected in its early stages by simple, harmless, painless X-ray.

The community X-ray is free to everyone. You have a duty to your country and your family. Make certain you are free of Tb. by taking advantage of the Free Chest X-ray survey at the clinic in Vilna from June 15th to 19th, inclusive.

Sangudo To Get New Post Office

SANGUDO — Sangudo main street will soon be sporting a "new look". The old post office building has been torn down and very soon carpenters will be busy erecting a new building. The new style cement blocks will be used.

Across the street Bill Kellum is getting his lot cleared and ready for the carpenters. He also is putting up a new building. Cement blocks will be used in this building, too.

Women's Group To Sponsor Farmer's Day Events

MAYERTHORPE — The Town and Country Women's Association are sponsoring the day's activities in Mayerthorpe on Farmer's Day, June 12. These activities promise to provide those attending with a good deal in the way of amusement and entertainment.

Getting things underway will be a parade at 1 o'clock to consist of floats, decorated cars, trucks, children's toys, tricycles, bikes, wagons, carriages and pets.

There will follow the parade a thrilling baseball game featuring the Town and Country Women in a four-inning tussle with the "Farmers."

Square dancing entries will be taken by Mrs. Albert Nelson of Mayerthorpe for the square dance contest which will be held on the grounds.

Besides various games for the small fry, the older ones will have their share of fun in the horse shoe tourney, tug-of-war and races. Of course the ever popular bingo will be played as well.

Coffee and eats will be available at the grounds and for those who bring picnic lunches tables will be provided.

A show is planned for 3 o'clock in the evening, and then to wind up a wonderful day, there will be a gala dance in the evening to Oment's orchestra.

All people are invited to attend this day's events, to join with farm folk of Mayerthorpe district in making Farmer's Day, 1953, a wonderful day.

Tragedy Leaves Family Homeless

BELLIS — Fire of unknown origin destroyed the small farm home on Friday of Mr. and Mrs. P. W. Taschuk. Mrs. Taschuk had been washing clothes outside when she heard a noise. When she rushed into the house the whole upstairs was aflame.

It is very lucky that the mother was nearby, and saved her three children, who were sleeping at the time. They saved very little of their hard-earned belongings. They are now living in a granary with borrowed bedding and household necessities.

Anyone who wishes to contribute anything you have, leave it at the home of Mrs. Melnyk or at any store in town, for these poor people and their children. Anything would be appreciated.

Boy Travels Via Horse Back To First-Aid Post

WILDWOOD — Eric Carlson, son of Mr. and Mrs. Alfred Carlson of Wildwood was transported on horseback to receive urgently needed first aid when he cut his foot with an axe. He was then rushed to an Edmonton hospital. Though suffering from the loss of blood, Eric is doing well.

Couple Celebrate 50th Anniversary

BELLIS — Mr. and Mrs. M. Repka celebrated their silver wedding on Sunday, May 31st, with their friends and relatives. Dinner was served at 2 p.m. by the relatives, after which the bride and groom cut their cake and a gift consisting of a beautiful chrome dining room suite of table in grey and red chairs was given to the couple and their family.

F.U.A. Locals Plan Farmer's Day Celebration

STONY PLAIN — At a meeting of representatives from 12 FUA sub-district locals and 11 4-H Clubs held in Stony Plain recently plans were completed for a joint celebration on Friday, June 12 at the Stony Plain Exhibition Grounds.

A complete sports program, including baseball and softball tournaments, midway attractions, races, tug-of-war, horseshoe pitching, etc. has been arranged for. Concession booths will be operated by the 4-H Club members. Through the courtesy of the Business Men's Association, the townspeople will enjoy a half-day holiday.

To round off the day's celebrations a dance will be held in the Community Centre in the evening at which draws will be made for a dozen or more valuable prizes. Every holder of a dance ticket will get in on a draw for these prizes.

New Test Well Being Drilled

COLINTON — Cascade Drilling Company has commenced drilling operations on a new test near Coolidge, about 14 miles south west of Athabasca. Cascade Drilling Company is under contract to three American oil companies, Sun Oil Company, Great Plains Development Company of Canada Ltd. and Stanolind Oil and Gas Company. The well will go down as a Devonian test to approximate completion at 3,500 feet.

District Youth Burned In Accident

GRASSLAND — Gordon Bracco was painfully burned Tuesday in an accident near Stony Plain. Gordon was working on the new pipe line to the coast when a tank of tar, used in coating the pipe, exploded, causing injuries which will probably keep him in hospital for two weeks.

His mother, Mrs. Bracco, of Grassland, is now in Edmonton attending to his welfare. Another worker was injured in the same accident.

Town Plans Hospital Day

VILNA — Plans for the observance of Hospital Day at Our Lady's Hospital on Wednesday, June 10 have been completed. In addition to the Open House, the Silver Tea and the Healthy Baby Contest, there will be special films shown at the local theatre, in addition to the regular features, on Tuesday and Wednesday, June 9 and 10. The Sisters request that those mothers who intend to enter their babies in the contest, be at the hospital by 3:30 at the latest. This co-operation on the part of the mothers will make it possible to have the awarding of prizes before 5:00 p.m. Tea will be served and the Open House continued from 6:30 p.m. to 8:00 p.m. for those business people and others who are unable to come during the afternoon.

1952 RECORD YEAR

\$98,000,000 Loaned To Canadian Farmers Under Farm Loan Act

OTTAWA—A total of \$98,259,151 was borrowed by Canadian farmers during 1952 under The Farm Improvement Loans Act. This information was contained in the annual report tabled in the House of Commons by the Minister of Finance, the Honourable Douglas Abbott. This represents the greatest amount borrowed during any twelve month period since the inception of the Act. The increase over the corresponding period of 1951 is nearly 13 million dollars.

Since the coming into force of The Farm Improvement Loans Act in 1945, farmers have availed themselves of 331,940 loans. The dollar volume of these loans amounts to \$353,640,000. At the end of 1952, farmers had repaid 65.3 per cent of this accumulated total.

Claims paid to the banks for losses amounted to \$12,153, an increase of nearly six thousand dollars over 1951. So far no accurate estimate of a future loss ratio can be predicted, but at the end of 1952, losses represented .01 per cent of the amount lent during seven years operation.

As in preceding years by far the greatest amount borrowed was by the farmers in the Prairie Provinces. Roughly 74 per cent of the ninety-eight million obtained last year was in this area. However, marked percentage increases were recorded in the Maritimes, and when cognizance is taken of the farming population and the value of the farms, the increase is significant. Ontario and British Columbia showed a slight increase, while Quebec farmers borrowed approximately one million dollars more than in 1951.

Purpose Of The Act

The Farm Improvement Loans Act enables farmers to borrow money for a wide variety of purposes, including the purchase of farm implements, livestock, financing farm buildings, and the clearing and breaking of land. The loans are obtained through chartered banks at five per cent simple interest, and repayments are arranged where possible to suit the paying capacity of the person obtaining the credit.

Farm Implements And Trucks

Mechanization still remains the prime concern of farmers. Loans for machines purchased last year totalled \$90,818,000. This is 92 per cent of the accumulated total for all purposes combined. Three-fourths of the ninety million spent on machinery was borrowed by farmers in the three Prairie Provinces. Undoubtedly the record grain crop harvested in the West was the stimulus for the many implements purchased. During the month of August more loans were granted than in any single month on record.

During 1952 there was financed under The Farm Improvement Loans Act 30,431 tractors, 15,289 combines and 1,589 threshers of new and used make. The new machines purchased under this Act accounted for 40 per cent of all tractors, 53 per cent of all combines and 43 per cent of all threshers sold in Canada last year. In addition, 13,900 farm trucks were financed.

Farm Building And Housing

The number of loans for construction, repair and alteration of farm buildings showed a slight increase over 1951. Loans for new houses numbered 563, for repairs to existing buildings, 1,326, and for utility buildings such as sheds and barns, 1,034. Farmers in the West constructed the largest number of houses, while Ontario led in loans for the other two classifications. Other areas of the East also showed more money spent on repairing existing buildings and erecting utility buildings than in constructing new homes. This is no doubt due because of older

and more settled farms in Eastern Canada. Borrowing for the above purposes totalled \$3,474,113.

Livestock

Both the number of loans and the amount borrowed for livestock increased during the past year. Ontario farmers borrowed nearly one million dollars for this purpose, followed by Alberta and Quebec. Borrowing in the latter two provinces amounted to \$586,425 and \$483,214 respectively.

A decrease was expected for livestock loans, due to the cattle embargo and lower beef prices, but farmers are apparently confident of a stable future market.

The accumulative total of loans granted for livestock across Canada numbered 3,175 and amounted to \$2,899,834.

Clearing And Breaking

Loans for this purpose increased over 1951. There were 987 loans granted totalling \$495,867. The land broken amounted to 45,138 acres, an increase of over eight thousand acres from the preceding year. Nearly all breaking was done in Alberta, Saskatchewan and Manitoba, these three provinces accounting for over 94 per cent of virgin land brought into cultivation. Since the inception of the Act, 418,778 acres have been cleared.

Crossfield News Briefs

Recently Miss Edna Jensen had a little party for her Explorer Class, some of which were graduating. The evening was spent in games, musical program and a delicious lunch.

Rev. Mr. Dovey, of the United Church, held a special service on Sunday last to mark the Coronation in which the congregation took part, using the special printed "Order of Service". Lois Reid and Rosalyn Bills sang a duet entitled "Elizabeth the Queen."

On June 2, 3 and 4 the Blossom Time Session of Grand Chapter was held in the Lethbridge Sports Center. Mrs. Webster, WM of Starlight Chapter, Crossfield, together with Mrs. F. Clayton and Mrs. Onstad, Airdrie, and Mrs. Chas. Fox, Crossfield, helped to swell the 914 regular delegates and visiting sisters from Canada and the States. Some sisters from Great Falls, had to remain due to floods in their city.

A social evening will be held in the Community Hall on June 16 at 8:30 p.m. when Mr. and Mrs. Alton High will be honored on the event of their 25th wedding anniversary. The public are invited to attend and will be assured of a good time. Committees are already working on program, decoration and lunch. It is hoped that Don Martin will be on hand and there will be dancing. General conveners are Mesdames C. Fox, C. High and L. Havens, who are being assisted by many others.

Mrs. James Belshaw entertained the members of the Afternoon Bridge Club. A delicious lunch was served on the dot of four and thoroughly enjoyed. High scores were made by Mrs. Ed Fraser and Mrs. Belshaw.

Chas. and Ed. Fox purchased a

bull at the Lacombe Show and Bull Sale.

Last week Neil McDonald and Lillian Aldred, talented young musicians, wrote their exams in Mount Royal College. The exams were piano theory and the pupils were given three hours in which to write. Both pupils found the exams not too difficult.

Mr. and Mrs. Claude Deeks, of Airdrie will soon be leaving for a trip to Eastern Canada and the Eastern States. In Detroit they will visit a sister of Mr. Deeks and her family. They are going CPR and will bring home a new Ford. Arthur Baker has moved from Canadian Bank of Commerce, Taber, to Bonnyville, north of Edmonton, where he is Bank Manager. Art was a former resident of Crossfield. Everyone is very happy over his appointment, as he is a very young man.

The second meeting of the 4-H Garden Club was held at the home of Mr. and Mrs. Frank Laut. The meeting was opened with the pledge of the club which reads as follows:

"I pledge my head to clearer thinking,
My hands to larger service, and
My health to better living, for
My club, my community and my country."

This pledge has been adopted with the new name of the club. A float for the 4-H club was discussed, and left in the hands of Joyce McDonald for planning. Her chosen helpers were Joyce Jensen, Lavonne Becker and Evelyn Banter. The meeting was adjourned and Rosalyn Bills and Adrienne Van Marion lead in a sing-song accompanied by Mrs. Banter on the piano. A very tasty lunch was served.

The third Garden Club meeting for 1953 was held at Mrs. William Aldred's and plans for the Coronation Parade were discussed. One of the following Efficiency winners are supposed to go to Olds: Joyce Jensen, Joyce McDonald or Margaret Aldred.

The members of the Happy Gang Garden Club rally in High River on June 20. There will be two demonstrations from the Happy gangers given by Evelyn Banter and Lavonne Becker and by Joyce Jensen and Joyce McDonald.

The girls of the third year garden club received their shrubs and each member was presented with a lovely tea rose from Lerrill's Flowers in Calgary. The next meeting is to be held at the home of Mrs. Vera Aldred where films will be shown on Marjory Banter and Joanne Copley's trip to Toronto. These films will be shown by Mr. Bannister. The meeting was adjourned and a very delicious lunch was served.

Oil Worker Is Drowned

FORT ASSINIBOINE (BUP).—John Myers, a 19-year-old oil worker, was drowned when his car plunged into a creek at Fort Assiniboine, 80 miles northwest of Edmonton.

RCMP said two boys found the submerged car and the body was recovered five hours later.

Police said Myers, an employee of Amerada Oil, apparently tried to ford the Nigger Creek in his car by driving across it over a treacherous earth fill. There was no bridge nearby.

The creek, swollen by spring rainfall and melting snow from the Rockies, was flowing over the earth fill and the car tumbled into deep water. The driver was unable to struggle clear of his car before drowning.

Police asked John Shannon in St. Louis if he had broken the window of a local poultry store and stolen a duck. He retorted: "I don't know a thing about it." Then there was a loud quack from inside his shirt. Shannon went to jail.

Annual Plowing Match Plans Ready For June 26, 27, at Bremner

The president of the Edmonton and District Agricultural Society, R. A. W. Briggs, has announced that plans are now complete for the societies' annual plowing, tilling and discer competitions and for the machinery display. It will be held this year for the first time in the Bremner district on the Schroter farm, the dates, June 26th and 27th.

The chief officials of the match are General Superintendent Garnet Marler, Superintendent of Tillage Competitions, Len Job, Tractor Driving Competition, Geoph. Ellet, Junior Judging, Jim Shearer, Catering, Myron Latam, Welding Competition, Mat Saramaga, Machinery Display, Terry Bockock, Gate Wm. Graunke, Ways and Means, Jim Bentley.

The prize list totalling about \$1500.00 as well as two wrist watches and gold watch and numerous pieces of silverware will be in the mail to all rural residents of the Edmonton District about the first week in June. Entries are expected from all districts surrounding the city as well as outside agricultural societies. It is hoped that there will be a particularly big entry from the Bremner area to show the visitors some really tough competition. Those wishing to enter should contact the secretary J. E. Duggan, Box 4201, South Edmonton, Phone 972-8711 in advance although entries can be made up to 9:30 a. m. the day of the match.

Jim Shearer in charge of the Junior Judging Competitions is very anxious to have a large entry of boys and girls in his class, which will be held on Saturday the 27th of June. The young people will be judging both tilling and plowing after a short instruction period. Lunch will be provided by the society to all juniors entering. The prizes in tilling donated by The Great West Garment Co. are as follows: 1st—\$16., 2nd—\$12., 3rd—\$10., 4th—\$8., 5th—\$6., 7th—\$4., 8th—\$3., 9th—\$2., all others 1.00. The same prize list is offered in the plow judging competitions by the Line Elevators Farm Service. In addition Mr. Otto, Massey Harris agent Edmonton, offers a gold watch to the over all champion junior judge and Curries Hardware N. Edmonton, offers a wrist watch to the highest point getter in plow judging and Jack Hope, Cockshutt dealer Edmonton, offers the same in the tiller judging. Boys and girls can enter at the superintendent's tent the morning of the competition.

A committee of the society has selected the site for the 1953 match which will be held on the Oliver Farm at Horse Hills in the Municipality of Sturgeon. A very fine field of bromo sod will be used for the plows as well as some stubble land for the tillers and discers. The stubble is now being seeded to Sweet Clover as was the land being used for the 1953 match.

Alberta Professor On Monument Board

OTTAWA (BUP)—The appointment of 10 members to the newly created Historic Sites and Monuments Board of Canada was announced.

Prof. Fred Landon of London, Ont., is chairman. Among others named, all for five-year terms, was Prof. M. H. Long, Edmonton, University of Alberta department of history.

Hereford Bull Is Grand Champion

CROSSFIELD—Mrs. Al Price, who returned home from hospital, where she underwent surgery for a cataract and is in good health, is very proud of the nice showing of the Herefords in the Lacombe Bull Sale and Show.

One of her animals received the Grand Champion and brought \$1600, which incidentally brought the highest price in the sale. Another sold for \$1500, one for \$700 and one for \$600 making an average of \$1100 per bull.

Farm output in West Germany is up 16 per cent since the war.

It's the little things that count

When it comes to good all-around automobile service it's the little things that count. That's why we emphasize thoroughness in every job we do. You'll soon find this out after we've had a chance to care for your car.
